

FINDERISH

Every year, billions of dollars in unclaimed property go undiscovered. This lost money could be yours, but it's not easy to find or claim.

Finderish is an unclaimed property resource that provides all the information users need to search and claim their funds from all 50 states. We make it easy for individuals and businesses to find and recover lost assets.

It can feel impossible to track down and recover your lost assets on your own. The government doesn't make it easy, and the process is often long and complicated.

Whether it's an old deposit box, a forgotten bank account, or even securities accounts—our comprehensive resources will lead you through the process to claim your property.

With Finderish, you have everything you need to get your money back—quickly and easily, start your search for unclaimed funds today!

Sincerely,

A handwritten signature in black ink that reads "Stephan Goss".
